### SVBC OFFICERS

President:	
Vice-President: Bob McGovern-Waite	828-0954
Secretary: Eric Aschenbach	574-2798
Treasurer: Marcia Lamphier	289-6712

### UPCOMING MEETINGS

<b>September 11</b>	<b>6:00pm</b>	Pre-meeting ride starting at Luigi's.
	<b>7:30pm</b>	Monthly meeting at Luigi's.

### AUGUST MEETING MINUTES

The pre-meeting ride consisted of two people. I don't know where they went. In old news, the Club jerseys are here. Pick them up from Marcia if you have not done so already! In new news, the 18th Annual SVBC Century is almost upon us. Art needs your help! Please call him to find out what you can do. The "Century Work Day" will be on Monday, September 4<sup>th</sup> to mark the routes and assign some remaining tasks. We'll meet at 9am at Wildwood Park in Bridgewater. Your help would be appreciated. In financial news, we have \$4,471.04 in the Club's treasury. This does not include all the expenses for the Bike Festival.

In other news, there will be a "Spring Ride" sponsored by the Friends of North River on September 17<sup>th</sup>. It will start from Wildwood Park in Bridgewater at 1 p.m. Our host will take us on a tour of four springs and give a brief history lesson at each one.

The MS150 Shenandoah Valley Fall Tour scheduled for September 16-17 needs volunteers. The ride starts in Woodstock and travels to Massanetta Springs just east of Harrisonburg, then returns to Woodstock the second day. If you can volunteer your time, they would greatly appreciate it. Please call Heather at (804) 971-8010. Thanks.

Eric

### A GOOD QUOTE

Getting on a bike makes me feel like Columbus. But the landmarks I'm exploring are islands of thought hidden from myself. The bike is my release. When the wind shifts and propels me, my body becomes a sail. I stop pedaling. I soar silently like a gull. I own myself. I feel grand. An unfettering of the soul. The past becomes the present. I'm on a trip with no timetable, no limit on stopovers, and no destination.

## SHENANDOAH VALLEY CENTURY

Our 18th Annual Shenandoah Valley Century, on Sunday, September 10<sup>th</sup>, is now only two weeks away. I hope you are planning on and looking forward to riding the Century, Half Century, or Quarter Century. Registrations are coming in at a good pace, and we now have a link to an on-line registration on the web page.

If you are not planning to ride, helpers are still needed for the day of the ride. Hardy (or not so hardy) volunteers are needed for:

Transportation Managers	(i.e., Sag drivers)	4
Traffic Engineers	(i.e., Parking lot attendants)	1
Communications Specialists	(i.e., Registration)	2
Dining Coordinators	(i.e., Rest stop help)	2
Administrative Assistant	(i.e., Gopher)	1

Let Art know if you can help in any of these endeavors (433-9247 or fovarg@aol.com. Ask friends and family if they can help.

The Workers' Century, when we mark the roads, will be on Monday, September 4<sup>th</sup>. Meet at 9:00am at Wildwood Park in Bridgewater. All are welcome, whether you volunteer the day of the ride or not.

Again, please don't forget to bring baked goods for end-of-the-ride treats. Deliver to Shelter #12 in Hillandale the morning of the 10th, or to Art's house the day before.

See you at the Century.

# ADVOCACY

## Transportation plan update

On Thursday, August 24<sup>th</sup>, I traveled to Charlottesville with various City of Harrisonburg staff to meet with Dan Painter, Charlottesville's Transportation Planner, with the intention of learning what his experience was with the various transportation consultants he has hired. It was a very informative meeting. Afterward, as a group, we decided that (a) Harrisonburg needs to add a full-time, permanent transportation planner to its staff more than it needs to hire an outside consultant to perform a transportation study, (b) Harrisonburg needs to dedicate a lot more funds to transportation initiatives than it currently does if it wants to improve its situation, (c) Rockingham County and Harrisonburg need to coordinate in order to form a cohesive plan and successfully snag state transportation funds, (d) citizen neighborhood groups must get involved in this process to provide constant feedback to city personnel. (One thing Charlottesville has is an incredibly active collection of "neighborhood associations" who meet regularly with their city planner. We are talking *hundreds* of people.) Once the city staff gets our recommendations written up, we will make a presentation to the City Council, hopefully backed up by both the CHANGE and CARING "political action groups." In the meantime, what YOU city residents can do is write or call the City Council members, expressing your strong desire for them to address points (a)-(c) above, and consider organizing your neighbors to determine your neighborhood's transportation needs.

## Writing letters

Both Neups and I wrote letters to the editor of the DNR this past month on bicycling, and I strongly encourage you to do the same. Be relatively polite, but firm. Reminding DNR readers that bicycles have the rights of motor vehicles by law is definitely worth a few minutes of letter writing. You can even e-mail your letter to letters@dnronline.com.

## Bluestone Drive

I recently found out that there were serious improvements proposed to Bluestone Drive (the road that passes through JMU's campus from Port Republic Road to South Main Street) on the table during the planning stages of the inadequate changes which were implemented a year ago. The more ambitious plan involved rerouting the road closer to I-81, while adding bicycle lanes in the process. Unfortunately, an equitable cost-sharing compromise between JMU and VDOT could not be reached, so the more ambitious plan died. Pitiful.

## Help

Anyone interested in helping me work on bicycle advocacy issues, especially someone who lives in Rockingham County, should let me know. I need help writing letters, talking to businesses about bicycle access, advocating for bicycle improvements with local governments, etc. Lots of folks have told me they appreciate what I have been doing for advocacy; now is the time for you to step up and make a difference too.

Len VanWyk, Advocacy Coordinator

# VINDICATION

Once again, I am vindicated. In the latest issue of *Bicycling*, I came across an ad for the official energy food of USA Cycling. And it's not any kind of special

energy bar at all. It's just a regular Fig Newton. Thus showing once again that money isn't everything.

## 9<sup>TH</sup> ANNUAL SHENANDOAH VALLEY BIKE FESTIVAL

I would like to take this opportunity to extend a very special THANK YOU to all my Ride Volunteers for this year's festival. I really appreciate all your help and support throughout the entire weekend. My Ride Volunteers are the BEST!!!

David Knicely	Tamer Moumen	Betsy Dunnenberger	Marshall Hammond	Alice Stecker
Eric Aschenbach	Becky Matheny	Neups	Jodi Hess	David Lorenzen
Scott Ripley	Art Fovargue	Bob McGovern-Waite		

Congratulations to the Bike Festival Committee for another successful SVBF. We truly appreciate all your hard work and the endless hours each of you put into this event. Please let us know any comment and/or suggestions you may have for next year's Bike Festival.

Marcia

## JERSEYS

If you ordered a SVBC jersey, please pick up your jersey as soon as possible from Marcia at the Wednesday Evening Rides (HHS, 5:15pm), the Century Ride September 3<sup>rd</sup> in Waynesboro, or contact Marcia (432-3312). The price is \$33. Thanks!

## WANNABES

Are you a C-pace rider (10 to 12 mph) who would like to become faster, smoother, and/or more efficient but you're not really sure how to accomplish your goals? Have you just gotten into cycling and want to see what cycling with a small group is all about? Then come out and join these rides. Together we will work, train, and have a good time on our bikes and hopefully, help you meet your cycling goals. We will talk about some of the ways that may improve your riding skills and your speed--techniques that have worked for leaders and that they continue to use. We will share with each other our experiences and help each other to become better riders. The rides will start at a C-pace with a distance of 10-15 miles. At a later date, the speed and/or distance will gradually increase (along with a more challenging terrain) based on the needs to the group. These rides are learning/training rides but also FUN rides and at no time will anyone be dropped. So come out, train, learn, and have fun!! We promise that everyone will learn at least one new way to improve your cycling skills. Check the monthly Ride Schedule for the dates/location/time. Call Alice Stecker (564-1611) or Marcia Lamphier (289-6712) for more information.

## TIDBITS

In an FCB New York study of readership data, it was found that *Bicycling* readers have the highest concentration of doughnut eaters as compared to readership of other magazines.

Two lunatics are out for a therapeutic bicycle ride when suddenly one stops and lets the air out of his tires.

"What did you do that for?" the other asks.

"I can't reach the pedals; thought this might help," replies the first.

The second lunatic shakes his head, gets off his bike, takes off the handlebars and seat, and swaps them around.

"Now, what did you do that for?" asks the first.

"If you're going to be stupid," says the second, "I'm going home."

## MORE TIDBITS

Roughly once per night in this nation, a person is killed on a bicycle after dark. Many more are injured.

The bicycle is one of the most efficient vehicles ever built. The chain drive allows only two percent of energy to be lost between the chainrings and the cassette. A car, even the most fuel efficient, loses about 80 percent of the engine's energy before it moves the car.
