President's/Editor's Column

Every now and then I get someone who waves at me when I'm out riding. And usually I have no clue as to who it was. Maybe we can get a law passed that says if you wave at someone, you have to call him on the phone that night to let him know it was you.

On the flip side, when I'm riding I do a lot of waving to mountain bikers on the road, or those with mountain bikes strapped to their cars. And they don't wave back to me. At times this reminds me of when I went cross-country. I would wave to those on road (racing) bikes and they would snub me. It was as if, back then, if you weren't racing you weren't really riding. Now I sometimes get the impression that if you aren't mountain biking, you're not really riding. Let's not forget in these days of specialization that we're all part of the same family.

Neups

MARCH MEETING MINUTES

Nine club members were in attendance. After the meeting was called to order, Neups presented the results of the election, and the slate of officers assumed their positions - Neups, President; Jody, Vice-President; Marcia, Treasurer; and David Knicely, Secretary. Other club business included Marcia's Treasurer's report of $1,118.41 and Art's continued involvement with bicycle advocacy.

A discussion and video presentation by Russ Culver about RAGBRAI was planned for the meeting but had to be delayed due to Russ's unfortunate biking accident. Everyone hopes you have a speedy recovery, Russ. We have rescheduled him for our May meeting.

The remaining part of the meeting was discussing upcoming events: 1) Trash Day on April 30th at 8:30am at the Donnelley parking lot. Any and all help will be greatly appreciated. 2) April's monthly meeting on the 11th. Scott Gauthier will give a presentation on structural integration.

The meeting came to a close with a bull session, which, surprisingly, lasted twice as long as the regular meeting.

IT TAKES A LICKING AND KEEPS ON ...

I don't think we can really use "ticking" here, but this is the story. A recent new member was doing his wash and already had the load in the dryer. He happened to here a noise in the dryer, so he stopped it to investigate. He found that his Avocet cyclocomputer was knocking around in there, with the battery having popped out. He searched and found the battery, put it in the computer, and it still worked. All he needed to do was recalibrate it. What an ad!

BICYCLE PLAN

Good news! The final draft of the Harrisonburg-Rockingham Bicycle Plan is finished, complete with maps, tables, figures, and a good looking cover. Also, the first step of the approval process, review by the City Planning Commission, is under way. Discussion is tentatively scheduled for the April 20th (Wednesday) Planning Commission meeting. Watch the local paper for confirmation, or call me a week prior. You can show your support for bicycling in Harrisonburg by attending this meeting, and showing support is crucial. I will try to get an update in the next newsletter and include information on the County's agenda. To review the Plan contact the City Planning Department. May the Spring breezes be always at your back.

TRASH DAY

We'll do our semi-annual trash pickup on Saturday, April 30th. We'll start as usual at the Donnelley parking lot on Kratzer Rd. (Rt. 753) at 8:30am. Be sure to wear long pants, long-sleeved shirt, and boots if you have them. Also, bring work gloves. The more the merrier, really. Also, for those who help, we'll finish at Mr. Jay's for some refreshments, on the club. Come join us and find out what everyone is talking about.
UPCOMING APRIL RIDES

Park and Park Ride
This will be a D ride, 5 miles (or a little under) and slow. I can't say that it will be entirely easy, but I can say that some of us will walk up the worst hill, and without shame. If there's interest and fat tires enough, we can even leave the pavement for a short stretch. Any skinny tires may stay on the hardtop.

We'll start at Hillandale Park in Harrisonburg at about 10am on Saturday the 16th and ride back streets to Westover Park. Depending on interest (ie., how many kids are along) we may stop at the playground and/or the drinking fountain. Then it's back to Hillandale. About an hour, all together.

I'll have all my kids on their bikes, so bring yours. If you don't have any kids, maybe you could borrow some! Bring along a picnic lunch to enjoy afterwards, if you want. Don't forget, all riders must have a helmet.

DAYTON DONUT
For those of you who don't have A Cyclist's Guide to the Shenandoah Valley, the Dayton Donut starts and ends at Hillandale Park in Harrisonburg. It's 12.5 miles. We'll gather at 10am on the 23rd. That'll give everybody plenty of time to get back by lunch and still have the whole afternoon for going to the mall. This will be a definite C ride. So if those B-C notations on some of the club rides scare you off, come out for this ride which will stay somewhere between 8 and 12 mph.

Since I read the book, I know we'll pedal past a 100 year old lake, a 172 year old church, a 245 year old house, and a 50 million year old volcano. Hopefully, we won't feel too old when we finish. We'll take 1 1/2 to 2 hours.

The Guide shows five rides under 20 miles from Harrisonburg, Dayton, or Bridgewater. If there's enough interest, we'll do some more of them at a C pace. So if you can't come this time, give me a call to let me know you're interested for next time. If Saturdays at 10 is bad for you, let me know what would be better.

John Maxfield 432-1603

(I wish to thank John for trying these slower rides. I've been badgering him on leading some for some time now. I'm glad to see him trying them. Some of you should be, too. We have about 30% of our membership that has marked their applications as being either a C or D rider. So join him for some fun. Neups)

RIDE RECAP
March 6
A cool start, but lots of sun and more than adequate clothing kept six riders and one ridee(?) warm. It's amazing how warm one gets while pedaling, and this was a casual ride. Brian towed his daughter (the ridee). We swept from McGeheysville south into Augusta county, looping back into Weyers Cave and Port Republic. Other than the broken spoke (by Neups) and flat tire (by Brian - half a mile from the end!), the ride of 32 miles was excellent. Look for it again someday.

WEEKNIGHT RIDES DESCRIPTIONS

| Monday      | Women's ride starting at Cool Breeze, 5:45pm. B-ride |
| Tuesday     | Time trials starting outside Dayton, 6pm. You make this one difficult or not. A flat course, but some traffic at times. The idea is to constantly improve your own time. |
| Wednesday   | Training ride starting at Cool Breeze, 6:10pm. Definitely an A-ride. Hard and fast. |
| Thursday    | Keezletown Ride starting at Keezletown Elementary School, 6:15pm. Early season this starts as a B-ride; by the end of the season it's a good A-ride. Usually some good hills. |

TIME TRIALS
We're starting on the 5th, but still no timer. May have to work this out there.
