ANNUAL ICE CREAM RIDE RECAP

The 2001 edition of our Annual Ice Cream Ride was a change from past years. Instead of starting and finishing at Kline’s after a two hour ride, the twelve participants started from the north end Food Lion at 8:30am. From there we rode the back roads to New Market and then to the outskirts of Timberville where the new dairy is situated. Though it was not the hottest of days and only about 10am, the ice cream tasted refreshingly good. We also had a couple riders, Sheila and John, that needed to sample the spicy Mamazuma’s Revenge chips. And one, Marshall, needed to have some cottage cheese. Oh the food bikers crave. After our feast we were off on our bikes again. After more back roads, we ended our 50-mile odyssey back in town.

Mark’s Bike Shop, Blue Ridge CycleWorks, and Mole Hill Bikes all contribute to the cost of the monthly newsletters. Please support these local shops.

FOR RENT: Tricosports bike case/carrier. Good for transporting your bike on plane, train, or bus anywhere in the world. Contact Dick Wettstone at 434-9430 (work) or 433-4884 (home).

FOR SALE: 1996 Cannondale R500 Compact road bike. 49 cm, built for women or smaller men, on 650C wheels. Shimano RSX Triple chain-ring with STI shifting. Very nice bike, not ridden much at all, maybe 50 miles total. EXCELLENT condition! Paid $850 new at Rockfish Gap Outfitters. Need to get a good price – the bike is practically brand new - even tires are in decent shape (Continental Grand Prix). (David Taylor at Rockfish Gap is going to tune it up good for the new owner.) Call Andy at 540-234-9095 or e-mail him at ringgold@cfw.com.

19th ANNUAL SHENANDOAH VALLEY CENTURY

By the time you read this, our 19th Annual Century will be just a few days away. Nineteen years - that's just about as old as the SVBC. What were you doing 19 years ago? Support your Club by taking part in this annual event - see information and registration form elsewhere in this newsletter. Bring your friends and relatives. Help mark the roads on September 3rd during the Workers’ Century. Or bring goodies for our guests to enjoy at the end of their rides.

If you can't ride it, please consider volunteering to help. As I write this, I am still in desperate need of sag drivers and other help. E-mail me at fovarg@aol.com or call 433-9247. Hope to see you there.

TIME TRIAL RESULTS

We have two more official time trials for the year, September 11th and the 25th. After the last one on the 25th, Les would like to get us all out for some food and some awards. Be sure to be prepared to hang out for a while afterwards. Carpool or make plans for someone to bring you and your bike back into town.

Bicycle rides of 25, 50, or 100 miles through the scenic and historic Shenandoah Valley of Virginia

Sponsored by the Shenandoah Valley Bicycle Club

The Shenandoah Valley Century is a special bicycling event sponsored in conjunction with a number of bicycling organizations nationwide that are offering similar rides during September. The term “century” refers to the longest ride being 100 miles (a century of miles). Century rides originated in the late 1800’s. Cyclists would attempt to ride 100 miles in under 10 hours. Now, rides of various lengths are offered to suit all abilities with no time limits set.

We invite you to join us and others on the SHENANDOAH VALLEY CENTURY for some of the finest cycling to be found. Scenic vistas, small towns, beautiful farms, quiet roads, and more. All routes are paved and have low traffic volume. Participants ride at their own pace; the event is not a race. Maps are provided and the route will be patrolled by automobile sag to provide assistance as needed. A food and drink stop is provided every 25 miles and at the midpoint of the 25 mile ride. At the end of the ride, bicyclists are treated to a variety of baked goods donated by the Shenandoah Valley Bicycle Club members.

To avoid delays in waiting for the sag, be prepared to fix minor repairs yourself, e.g. a flat tire.

DATE: Sunday, September 9, 2001

TIME: 100 mile ride: registration 7am; start 8am
25 & 50 miles: registration 9am; start 10am

PLACE: Hillandale Park shelter #11
Hillandale Avenue
Harrisonburg, VA

COST: Individual $8 pre-registration (see registration form)
Family $20 (3 or more family members)

Registration includes route map, marked route, route patrol, mechanical help, food and water stops during the ride, and after ride treats. Massages and patches from the League of American Bicyclists (a national bicycling organization) will be available after the ride for a nominal fee. ANSI OR SNELL APPROVED HELMETS ARE REQUIRED.

Harrisonburg is easily reached from the north or south via I-81. Hillandale Avenue is off Route 42 (South High Street) on the western side of the city. Parking in Hillandale may be limited. Additional parking is available at the nearby Food Lion and other locations.

TIDBITS

If each resident of a community of 100,000 replaced a car trip with a bicycle trip just once a month, 3,764 tons of CO2 emissions could be cut per year. Some 20 pounds of CO2 are emitted per gallon of gasoline used for driving a motor vehicle, according to the EPA's Office of Transportation and Air Quality.

Here’s a site to check out - http://www.bikerag.com. It has tons of mountain biking trail maps (not just reviews), with associated pictures so you can actually see what the riding is like. Of course no trail review would be complete without a rating system - all trails here are rated (1-5) in buckets of puke.

WATER REPLACEMENT

Water replacement can be tricky. For one thing, you can’t rely on thirst. The primary trigger for thirst is a fall in water concentration. Water loss without salt loss, or salt addition without water addition will get you searching for the liquids. Which is why there’s a handful of salty nuts on the bar where the bartender wants to push the sale of beer. But when salt loss and water loss occur together, the thirst trigger isn’t pulled and significant dehydration can take place without warning.

It’s like taking a water pill, a Lasix, lots of fluid loss with no craving to replace it. It follows then, that you’ve got to drink while you exercise, even when you’re not thirsty.

A couple of one-pint water bottles every hour are just right when temperatures are extreme. Yes, you read right! A water bottle every 30 minutes. Sports drinks are structured to make drinking a little easier. Their flavor and sweetness let people drink significantly more than they can make themselves drink of plain water. Their electrolyte content gets the fluid absorbed from the gut a good deal faster than plain water. But don’t make the mistake of thinking that their sodium and potassium content is enough to offset the loss of sodium in sweat.

Salt loading before and after exercise is still essential.
So how do folks get into trouble in hot weather riding?
Three main ways:
1. They ignore the advice in articles like this that appear every summer. They head out, ride, don’t drink. They wind up exhausted, lightheaded, faint, sometimes in a heap at the side of the road with filled water bottles still on their bikes.
2. Some folks bonk. They use up the energy stored in liver and muscle glycogen, burning calories without replacing them.
3. It is possible to overshoot, to drink too much water, to get to a state of serious, even fatal water intoxication during strenuous exercise. Further, your body has a lot of compensating mechanisms, many of them in your kidneys, to make adjustments for salt or water deficits or excesses. Pain relieving medications, like Ibuprofen (Advil or Aleve), aspirin and the new wonder drugs, Vioxx and Celebrex, produce temporary changes in kidney function that blunt the kidneys’ ability to compensate fluid and electrolyte problems. Pain relievers are wonderful taken after a ride, but riskier taken ahead of time.

So go to it. Ride and enjoy the great outdoors this summer. But think a little about your salt and fluid intake as you do.
