UPCOMING MEETINGS

Meetings are in Luigi’s (Original Rt. 42 location) back room. If closed, we’ll meet at El Charro on S. Main St.

July 10th 7:30pm Monthly meeting. Looks like we’ll be discussing finances, the Festival, and the Century. Please attend and volunteer for these events.

JUNE MEETING MINUTES

The June SVBC meeting was held at Luigi’s Rt. 42S on June 12th at 7:30 P.M. The Treasurer reported a balance of $4,370.03. It was decided to postpone the budget report until Ben could be at the meeting. The budget presentation will be during the July meeting.

The Shenandoah Valley Bike Festival to be held on July 29th was the main topic of discussion. Jonathan Schrag, representing OCP, attended the meeting. Look for flyers, posters, and registration at local bike shops, Mr. J’s, and other establishments. This year the routes will head north and west for the first time. Neups has designed a challenging century to go with the 25 and 50 mile options. Rest stops will be provided as well as ride leaders. The club needs volunteers to mark routes and lead rides. OCP is providing rest stop volunteers and sag support (but could use these as well). If you would like to help, please contact Jonathan Schrag. If you can help mark the routes, possibly the week/weekend of July 15th contact Neups or Marcia.

SMBC reminds folks of the Tour de Burg happening the first of July. Go to the club’s web site for details. Trail work is always happening on Thursday at Massanutten’s west side and most weekends in the GW. Look for listings on the web page.

A reminder of the weekly/bi-weekly Club rides, Tuesdays (2nd and 4th) are TT on Dry River Road, Wednesdays. are the social ride from HHS, Thursdays are the fast rides from Keezletown Elementary, and Sundays are a steady paced ride from Bridgewater College. See the web page for details.

Hopefully Jack had a good vacation and Ben is back in town, so things will settle down for the next meeting. Thanks to everyone for coming. The once 2-4 members present have now grown to 10-14 present. The Club works because you do.

The next meeting will be July 10th at 7:30 P.M. Luigi’s original on 42S.

Respectfully submitted
Marshall Hammond
Secretary SVBC

**TRIGGERING CAMERA-ACTIVATED TRAFFIC LIGHTS**

There are few things as frustrating to a law-abiding cyclist as a traffic light that won't change. Harrisonburg has been slowly replacing censor loops with camera-activated signals; only the latter can recognize bicycles. But sometimes a cyclist won't trigger even the camera-activated signals, leaving the rider with the choice of running the light or sitting there until a car shows up. (And if someone isn't sure a light will change, they usually won't hang around for an indeterminable amount of time just out of curiosity.)

I have found that these traffic lights are triggered by giving the camera a broadside view -- by weaving back and forth in the lane as you approach the light, riding in a circle in front of the stop line, or just turning your bike sideways.

So, give it a try.

Len Van Wyk

September 8-9 3rd Annual Sacred Summits Cycling Tour. An inspiring and challenging 130-mile Friday-Saturday tour along the Blue Ridge Parkway with an overnight stop at Lake Powhatan, a Pisgah National Forest recreation area near Asheville, N.C. Over the course of two days, you'll climb more than 10,000 feet and reach heights up to 5,600 feet above sea level. Ascents up to six miles long will push you to the limit. Sacred Summits provides attentive support, including frequent aid stations and a fleet of support vehicles linked by amateur radio operators. A 125-rider limit assures personal attention. The ride benefits the Blue Ridge Parkway’s “Parks As Classrooms” program and environmental education at Lake Logan Center. For details and online registration, please visit the Sacred Summits website at www.sacredsummits.org

September 9 Juvenile Diabetes Research Foundation, Asheville, NC. Over 200 cyclists ride through the lush countryside of Appalachia. Cyclists will have the unique opportunity to ride through some of the most colorful scenery just prior to the peak season. Join us for a fantastic weekend and one incredible ride. You’ll be amazed at the satisfaction you’ll find from challenging yourself and contributing to a cure for diabetes. All you need to do is raise $3,500. If that sounds tough, remember—it covers all your travel, lodging, and meals for the ride weekend, and it also provides important funds to help cure diabetes. ADDRESS/PHONE CHANGES

Remember that if you street address, e-mail address, or phone number changes, you need to get the new information to Neups (neups-web@att.net or 438-1488) so the Club’s records are up to date. He’s been getting more bounced e-mails lately and then has to send newsletters out through the regular mail. Thanks.

CHINA WANTS TO REVERSE AUTO DOMINATION TREND

According to a June 15th Guardian article, "Having spent the past decade pursuing a transport policy of four wheels rich, two wheels poor, the Chinese government has suddenly rediscovered the environmental and health benefits of the bicycle. The construction ministry announced on Thursday that any bike lanes that have been narrowed or destroyed to make way for cars in recent years must be returned to their original glory. This followed orders on Tuesday that all civil servants should cycle to work or take public transport to reduce the smog that chokes most city streets and urban lungs.

"Qiu Baoxing, a vice-minister with the Ministry of Construction, said it was important for China to retain its title as the 'kingdom of bicycles,' according to a report by the official Xinhua news agency. The reputation was well deserved 25 years ago, when Beijing was famous for its swarms of cyclists. But a quarter-century of breakneck industrial development has utterly transformed the streets of almost every city. China has become infatuated with the car, which is seen as a symbol of success and modernity. Qiu was quoted as saying that the number of vehicles on China's roads has increased more than twenty-fold since 1978 to 27m. Within 15 years, he predicted, it could rise to more than 130m -- which still represents only one car for every 10 people..."
